

Blood Donation Management System Project Logical Design

Tianzhu Li, Kai Sun, Shou-Tzu Han | August 10, 2022

- Mapping Binary Relationships(slide week 3 page 22)
- **One-to-Many**–Primary key on the one side becomes a foreign key on the many side
 - **Many-to-Many**–Create a ***new relation*** with the primary keys of the two entities as its primary key
 - **One-to-One**–Primary key on mandatory side becomes a foreign key on optional side
